## FROM AN ARTIST'S SIGNATURE TO THE ART OF BEAUTIFUL WRITING

In that area of emotions where writing and images fuse together, the grace of a curving line, the energy in the stroke of a pen and the depth of a rich colour are among the elements that led Caran d'Ache to develop its passion for fine writing. For almost a century, steeped in the great traditions of Swiss Manufacturing, the company has created writing instruments, and a palette of colours, that are universally recognised symbols of excellence. These reliable, precise and precious objects have acquired an international reputation for combining creativity and distinction with the use of noble materials.

To continue this policy, our Geneva workshops carefully preserve their independent spirit and their commitment to authenticity and ethical production.

## MANUFACTURED IN GENEVA WORKSHOPS

Caran d'Ache draws on a priceless heritage of technical expertise to preserve the art of handwriting. The company's writing instruments, globally recognised for their excellence, are entirely produced in Geneva. In the secret of their workshops, Caran d'Ache craftsmen boldly combine expertise and aesthetics in the great Swiss Made tradition. To create these emotive objects, which are also feats of technology, they offer original materials and perfect forms, giving writing an innate sense of refinement.

## CARAN D'ACHE, IN LOVE WITH COLOUR

The play of light on the material... its soft, velvety texture... the precious pigments brought from mysterious places... There has been a genuine love of colours, and the traditions of manufacturing them, in our Geneva workshops ever since our first pencil was produced nearby in 1915.

The fine, smooth leads, the subtly transparent watercolours and the brilliant, deep, light-resistant paints have been developed for creative professionals as well as amateur artists. They all reflect Caran d'Ache's exceptional Swiss Made quality and love of its craft.

As a Maison de Haute Ecriture, we respect nature as well as people. The premium-quality cedar used in our pencils is certified FSC, and our production of leads, pastels and paints carefully follows the principles of sustainable development.

---

# THE ART OF BEAUTIFUL WRITING

---

Just as the art of writing brings together characters, gestures and traditions, Caran d'Ache writing instruments represent refinement, creativity and expertise, all expressed with Swiss Made excellence.

For almost a century, Caran d'Ache collections have reflected the passion and the subtlety of fine writing. They are jewels of technology with inspired designs; emblems of excellence enhanced by rare and noble materials.

Lacquered, guilloched or polished bodies feel superb in the hand; rhodium-coated nibs or long-life tungsten ballpoints provide a great writing touch; contemporary or classic designs create a seductive visual appeal. Caran d'Ache writing instruments are treasures for all those who appreciate genuine distinction.

---

# EXPERTISE

---

---

## THE ARTISTIC CRAFTS

### ENGRAVING

The fine engraving that characterises Caran d'Ache writing instruments is the product of patient, meticulous work. The company's innovative techniques of milling and engraving with lasers or diamonds make it possible to produce a large variety of outlines and reliefs that bring a design to life by creating a delicate play of light and shadow. Whether it is guillochage or personalised engraving, each piece receives the same attention to detail, making the finished instrument a treasure of refinement.

### POLISHING

A soft touch, comfortable writing and perfect design... sometimes sparkling, sometimes matt, each part of these Caran d'Ache products is carefully worked. All the writing instruments finished in precious materials are polished, which is also a very important operation when applying lacquer or Chinese lacquer.

### THE UNIQUE EXPERTISE OF THE LACQUER MASTER

A finish that requires exceptional precision, lacquer gloriously enhances a writing instrument with an incomparable brilliance and its large palette of tints that Caran d'Ache is constantly extending. Because preparing and applying lacquer requires such extraordinary skill, the work of the lacquer master is uniquely valuable. It demonstrates the company's commitment to authenticity and excellence in every product it creates.

### JEWELLERY

Setting diamonds, rubies, sapphires, emeralds, and engraving initials, a name, or even a short message... Caran d'Ache offers all lovers of rare objects the possibility of personalising their writing instrument. If they wish, they can choose the precious stones which will then be set by a Geneva jeweller. Each personalised writing instrument is numbered, engraved and accompanied by a certificate. Gemstones used by Caran d'Ache are from controlled, ethical sources, are not involved in the financing of armed conflicts and conform to United Nations resolutions.

---

# NOBLE MATERIALS

---

## PRECIOUS METALS: SILVER, RHODIUM, PLATINUM

Caran d'Ache creations in silver or solid gold are systematically controlled by the Central Office for Precious Metals Control and are certified with its seal. Gold is the metal used in the most beautiful work produced by Caran d'Ache craftsmen. Like real goldsmiths, they sculpt it, decorate it, engrave it and polish it. But Caran d'Ache also explores other horizons with rhodium, the metal in the platinum family whose hardness and rarity make it twice as expensive as gold. Extremely strong, it enables writing instruments to keep their brilliance over the years, protecting them from corrosion and rust, as well as abrasion and tarnishing. Rare, pure and inert, rhodium is the most exclusive of the precious metals used by the company.

## CHINESE LACQUER

A natural, living product derived from the sap of the Rhus Verniciflua tree, Chinese lacquer regularly inspires the most beautiful Caran d'Ache creations. Using traditional expertise inherited from the great oriental masters, the company is one of the very few in the world to have the secret... and the patience. The multiple coats of lacquer are applied over a period of twelve days. Chinese lacquer, which may be natural colour or tinted with pigments of blue, black or red, embellishes lighters and writing instruments in the Varius and Hexagonal collections as well as the Limited Editions.

#### CARBON FIBRE

Carbon fibre is the epitome of a modern material. Its lightness and outstanding rigidity give it an immediate appeal and Caran d'Ache uses it to create a new, high-tech interpretation of tradition. Removed from its normal environment of top-level sports, and linked with silver-plated elements, carbon fibre brings power and strength to the Varius line.

#### COAT OF MAIL

In its innovative use of coat of mail, Caran d'Ache has made the most of this legendary material that once protected medieval knights. Its woven links of stainless steel create a very pleasant texture in the writer's hand. Coat of mail even comes in a gold-plated version.

#### ROSEWOOD

This wood comes from a tree in Brazil, the thinness of its veins; its hardness and its resistance make it a greatly prized wood among cabinetmakers.

#### SNAKEWOOD

The wood of the Brosnum tree, found in Guyana and Surinam, has a tiger red-brown appearance that resembles a snake and gives it its English name, Snakewood. Its contrasting colours, unique veining and rich variations make it a highly prized material for use in expensive turned objects.

#### ALLIGATOR LEATHER

Considered as the diamond of leathers, the rare and elegant alligator skin is a truly precious natural material that requires expert, dedicated treatment.

---

# ECRIDOR

---

Both its name and shape have long been unmistakable emblems of Caran d'Ache expertise.

The Ecridor collection is composed of six lines each with guillochage inspired by a different world – one of the most famous pre-Columbian civilisations for The Ecridor Maya, the legendary, fiery Mustang for the Ecridor Type 55, geometry and art for the Ecridor Cubic line, and architecture for the Ecridor Rotation.

The collection is constantly evolving, offering its hexagonal body to the talents of the master engravers who are always looking to develop new guillochage designs. Whatever the inspiration selected, each version remains faithful to the key elements of the Ecridor's success: a simple design based on a hexagonal body made of brass with gilded or silver-plated, rhodium-coated finishes, also available in a XS version.

# ECRIDOR

## ÉCLAT

---

The brightest star in the Caran d'Ache galaxy, the Ecridor Éclat with its astonishing sparkle completes the legendary range from the Maison de Haute Ecriture.

Bordered with delicately engraved arabesques and set with some 35 Swarovski crystals, the Ecridor Éclat is a homage to femininity and a testimony to the incredible precision of the polisher.

This ballpoint pen with its silvered, rhodium-coated body carries the label, "MADE WITH SWAROVSKI® ELEMENTS", an assurance of quality that guarantees that only genuine Swarovski crystals are used.

# MADISON

---

Because the most effective icons are those that adapt to changing times, Caran d'Ache has carefully revisited one of its most famous collections, introduced in the 1970s. The elegant Madison retains its slender rounded body but has been given a jointed clip. A mechanism specifically developed for this new generation allows the ink cartridge or pencil lead to be removed with a simple press of a button. This timeless collection is now available in several versions – silvered with rhodium coating, gold-plated, or bicolour. It is a true classic, updated yet firmly rooted in its time.

# LÉMAN

---

Sometimes warm and shimmering like a fiery sunset on the waters of the lake, sometimes soft and powdery like the clouds of an uncertain dawn, a palette of subtle tints is the inspiration of the Léman collection. In a wonderland of colours composed of the pigments used in our Fine Arts products, the collection captures the rich chromatic variations that constantly change the face of Lake Léman. Dawn pink, evening red, daybreak saffron, midnight blue, absolute black... the collection has been developed in a variety of original shades, alternating the silky lacquer and the richness of gold or the sparkle of rhodium-coated silver with delicately engraved lines in the bicolour models. Infused with brilliance, they demonstrate Caran d'Ache's profound mastery of colour while their rounded shape, echoing the soft shores of the lake, makes them delightfully comfortable writing instruments.

# VARIUS

---

A masterful shape, a hexagonal body that feels so comfortable in the fingers... The iconic Caran d'Ache collection, Varius is the result of tireless, passionate work on materials. Alligator leather, Chinese lacquer, carbon fibre, coat of mail or precious species such as Snakewood and Rosewood complement the rhodium-coated silver or gold-plated fittings of the writing instruments. A rare conjunction of striking design and superb writing comfort, Varius is the only collection to offer fountain pen nibs in six widths – F, M, B, OM, OB, EF – turning the art of handwriting into a daily pleasure.

# HEXAGONAL

---

The classic, prestigious Hexagonal collection highlights two areas of expertise perfectly mastered by Caran d'Ache. The use of Chinese lacquer and the art of diamond engraving both revealed in a new light in decorating two elegant, refined lines of writing instruments. The Hexagonal Lacque de Chine Ecaille demonstrates the excellence of Caran d'Ache craftsmen in the use of this noble living material, while the Hexagonal Cubes presents a series of square motifs. Rigid lines and sharp corners with verticals intersecting horizontals... Immediately recognisable by its deep guillochage, this very contemporary version reinterprets this purest of geometrical forms on the six facets of the writing instrument, and pays tribute to the engraver's incredible precision.

# PERLES

---

It is no accident that Fine Writing and Fine Jewellery come together in the Harvest Collection, composed of voluptuous objects that pay homage to the Akoya pearl. Each of these salt water cultured pearls with cream-pink reflections is carefully selected according to type, mother-of-pearl coating, surface condition, lustre, colour harmony, size and shape. To reveal the real femininity of this Japanese treasure, Caran d'Ache presents it on precious writing instruments delicately engraved with a fine spiral. Their platinum reflections are magnified by brilliant-cut diamonds: three on the fountain pen, two on the roller pen and one on the ballpoint. In this collection, which celebrates the annual pearl harvest, the hours of work and the technical complexity it involves are obscured by its brilliance and timeless refinement.

PERLES **HARVEST**

Click-in cap set with one diamond of 0.08 cts

---

*Refills: Goliath cartridge, large, medium or fine (p. 55)*

---

# REFILLS

---

Writing comfort also applies to refills and particularly to the quality of the inks chosen by Caran d'Ache. A strict flow control ensures smooth, even handwriting with clean lines, in a large range of colours, over a long period. It is a technology that meets the very highest quality standards – the only standards recognised at Caran d'Ache.

## FOUNTAIN PENS

To satisfy the writing preferences of as many people as possible, Caran d'Ache fountain pens can be fitted with a piston ink pump or can accept ink cartridges.

## BALLPOINT PENS

Caran d'Ache ballpoint pens are also carefully designed to provide great writing comfort. They are fitted with the famous Goliath giant cartridge that has the writing capacity to cover 600 A4 pages! To make it a particularly easy refill to use, the ball is fitted into its seat with great precision and its stainless steel and tungsten carbide composition enables it to lay down intense, regular lines on the paper. It is available in three writing widths: fine medium and large.

## ROLLER PENS

Roller pen refills are produced in a similar way to the Goliath cartridge but contain a more fluid ink. The result is a level of writing comfort that is almost identical to a fountain pen. Roller pens can also accept fibre tip cartridges available in medium and fine sizes.

## MECHANICAL PENCILS

Caran d'Ache expertise extends to mechanical pencils. They take leads of 0.5 mm or 0.7 mm which are advanced by a push button that is particularly easy to operate. Since the company is very familiar with the needs of artists, they are not forgotten: a choice of 2 mm coloured leads is available for them.

---

# ALL THE COLOURS OF THE EARTH

---

Caran d'Ache draws on its expertise and mastery of colour to offer anyone who loves fine handwriting a choice of ink bottles containing nine original tints.

Dark, bright, soft, the different shades of Caran d'Ache inks form a rich chromatic palette that offers all the colours of the Earth. They can be a source of inspiration, express a mood, add emotion to words, or record an exceptional moment. These nine original, vivid tints can express the nuances of feelings and make the pen a delicately subtle instrument.

# SERVICES

---

Joining the world of Caran d'Ache means choosing to provide guaranteed high-quality service – an undertaking that our company has met every day for more than 80 years. Following up each order, and welcoming and listening to each customer are both particularly important.

The expertise inherent in Caran d'Ache products is matched by a range of services that are committed to achieving the highest standards of perfection. Engraving and personalisation, meticulous packaging, an international guarantee, a user instruction manual stamped at the time of purchase, and after-sales service all demonstrate the determination of Caran d'Ache to deliver customer satisfaction through a very selective international network of retailers.

---

# PERSONAL ENGRAVING

---

Many Caran d'Ache writing instruments can be engraved on request to one of the brand's authorised retailers. The company's craftsmen are careful to create a space reserved for personalised engraving on the side opposite the clip. Here the customer can be very imaginative: a name, a date, or a short message make the writing instrument a highly personal object, unique and unmistakable.

---

# CORPORATE GIFTS

---

The name itself represents a prestigious, educational world and is now a synonym for excellence and creativity. More than simply a brand, the Swiss company has imposed its own style: a “Maison de Haute Ecriture”.

With more than 200 writing instruments for both top-of-the-range luxury market and for the office, Caran d’Ache can propose many personalised gifts which are sure to capture attention. If you wish to thank your clients and keep their loyalty, or invigorate your sales team, have a look through our special catalogue and ask us for a quotation.
